Subject: Important Lumea Changes

MSB Massachusetts Community Email | April 10, 2014

In the near future, MSB will be adding some enhancements to your Lumea™ account which will allow us to better monitor the claims that we are submitting on behalf of your district. For example, until now, Lumea™ did not require you to maintain provider credential information in Lumea™. Once the enhancements are "live" in your Lumea™ account, provider credentials will become necessary in Lumea™. Along with provider credentials, there are several other data points that you will want to be aware of and maintain in order to ensure that accurate, compliant billing is taking place.

I will be providing several 30-minute sessions via webinar to inform and train you on the new updates in Lumea™. Please click this [link](#) to be connected to our events page where you can register to join me at one of the webinars. Of course, if you would like to schedule an in-person meeting, I'm very happy to come out and sit down with you.

I look forward to seeing you via webinar or in person!

Steve Courter
Director of Client and Business Services
