MSB™ Community Email | August 21, 2014

Yes, we are already talking about winter (ekkk!), but not about the cold or snow, just our Medicaid Connection webinars.

Thank you so much to those of you who participated in our Medicaid Connection Survey. Based on the feedback from the Survey, we have changed our Medicaid Connection schedule and the new dates are as follows (please mark your calendars accordingly):

- The first Wednesday each December
- The first Wednesday each April
- The first Wednesday each August

This new schedule provides the opportunity for us to provide timely information by connecting with districts at strategic times throughout the year. We will continue to review important updates and changes regarding Medicaid policy and Lumea™ during these webinars. The Medicaid Connection webinars also provide an opportunity for Lumea™ Administrators to ask questions regarding "Hot Topics" and receive answers from MSB™'s management team members. We would like to ensure that not only has everyone received notification regarding the necessary updates and changes to help your district maximize compliance and reimbursement, but more importantly, that everyone understands those changes.

We have had great turnouts so far, and we have received very positive feedback from attendees. We hope you will be able to join us for our 2014-15 Medicaid Connection webinar series now scheduled in December, April and August. Please visit our [Events](#) page now to register for each Medicaid Connection webinar.
